Our new website has just been launched. We hope it will help homeowners be able to get necessary forms easily, provide new homeowners and tenants with access to essential information, and give our community a place to meet in the virtual world. Not all sections of the site are up and running yet, but we're off to a good start.

2009 Water Usage for Our Community

LA City and County will be watching for water abusers during the next few months and we don't want one of our homeowners, in Diamond Point, to become a poster child for the City of LA water abusers list!

There are some very simple ways we all can save water without any painful effects. See the tips below to save water!

- Turn off water when brushing your teeth >> SAVE 3 gallons / day
- Wash only FULL loads of laundry >> SAVE 15-50 gallons / day
- Water your yards only before 8:00am >> SAVE 25 gallons / day
- DO NOT wash your driveway down >> SAVE 150 gallons 14780 Pipeline Avenue
